Just at the close of the recent session of Congress, the Acting Secretary of the Treasury communicated to the Senate the information called for by Mr. Meriwether. We have given the papers a careful examination, and we present the result of that examination, with the hope that it will be candidly considered, notwithstanding the course which the Whig press has pursued. Justice to General Scott demands that his accounts should be laid before the public, if all of them are sanctioned by law. Justice to the country demands that they should be exhibited, if any of them are not sanctioned by law. Truth demands a full statement, no matter what the re-

sult may be. The papers transmitted are—
I. A letter from the Secretary of War, relative to the balance of contributions, &c., received in Mexico, and withheld to the present time without authority of law,

the Treasury, communicating four papers:

1. A statement showing the amount of pay proper, subsistence, forage, and allowance for servants, received by General Scott from July 1, 1815, to June 30, 1852. (This statement includes an item of \$1,095 for treble rations for one year, paid in March, 1839, on account of expenses in the Cherokee country, and on the northern and northeastern frontier; and an item of \$775 for transportation of baggage to and from Europe, and allow-ance for fuel and quarters while there.) All items of this statement amount to\$203,779 71

at the Register's office to Gen. Scott for personal ex-penses and loss in exchange, beyond his pay in the army, during a visit to Europe.

4. A statement of the pay proper, subsistence, forage, and allowance for servants of Gen. Pierce, as an officer in the army, amounting to \$3,182 62 III. A letter from John S. Gallaher, the Third Auditor, showing payments to General Scott, through that office, since December, 1811, as follows: Regular allowances..... \$49,776 99

nothing to say, for he was entitled to them by law; but his extra allowences need explanation and require comment. Officers in the army are allowed forage for a number of horses, regulated by their rank, and allowances are also made for a number of servants regulated in the same manner. For those two items General Scott has received \$45,315 34. Of course General Scott has received \$45,315 34. Of course General Scott has received \$45,315 34. Of course General Scott wants which the laws allowed him to keep; but custom, if not law, sanctions demands for the forage the horses would have consumed, and the expenses which would have consumed, and the expenses which would have been incurred for the servants, had they been kept.

pended it for "secret services" during the war. The auditor also states that vouchers were presented in 1851, out that they have not been received at his office.

The only remaining item to be considered is the sum of \$7,885 19 mentioned in the letter of the Secretary of War. It was a commission of three and a half per cent. Which Gen. Scott charged as recompense for "losses, trouble, and responsibilities" on the sum of \$225,291 45 which came into his hands from contributions, sales of the buildings open to the public. That law did not continue such allowances, and Gen. Scott crease the evil under which the country suffers from exlaw did not continue such allowances, and Gen. Scott himself speaks of the item therefor as a deficiency in his receipts from the paymaster, being a sum which he could not receive from that officer "on account of certain omissions in the act of Congress." Notwithstanding those omissions of the law, whereby such allowances were discontinued, Gen. Scott charged the item, and it was paid, along with the item for losses by difference of exchange, from the contingent fund for foreign intercourse. This payment came to the knowledge of Mr. Calhoun while he was Secretary of War, and he deducted the amount from Gen. Scott's pay, and allowed him only the pay of his brevet rank with double rations, in accordance with Mr. Dallas's letter. Subsequently Mr. Calhoun's action was cancelled, and the allowance again made.

General Scott's Pay and Allowances.

Mr. Meriwether's call for information as to the sums of money received from the treasury by Gen. Scott and General Pierce, and as to the character of the various items composing the aggregate amounts paid to them, has been violently denounced by the Whig press throughout the Union. Mr. Meriwether, as the representative of a sovereign State, had a perfect right to make such a call. Similar movements have been made by the Whig party; and, under certain circumstances, it becomes the imperative duty of representatives of the people to call for such information. The Whig press, however, has villified and abused Mr. Meriwether for requesting a statement of the accounts of Gen. Scott and Gen. Pierce; and it has probably fixed a tinge of prejudice on the public mind by adopting a course which tends to create a suspicion that General Scott's friends are apprehensive of the effects of exhibiting his transactions with the ment\$1,428

As to the item for losses by exchange, we only remark that all our foreign ministers have to submit to them when exchange is against the United States.

The other item contained in the register's report is a payment of sixteen dollars and thirty cents a day for twenty-three days, as Acting Secretary of War in 1850, while he was receiving his pay and allowances as an officer in the army. On this head we content ourselves with making the following extract from an act of Congress approved August 23, 1842, intended to submit to the place where Piarce was born, and has a formidable party at his back Yet he has never lifted his little finger in New Hampshire in behalf of religious freedom.

the community to this invaluable material for Roofs. In the eastern cities it has almost entirely superceded all other kinds of Roofs, and in this city, although but recently introduced, has in every instance given the most entire satisfaction. Arrangements are now perfected by which the subscribers are enabled to execute all orders for the Roofing Material, either in town or country, at the shortest notice, and on the most favorable terms.

They are economical in construction, as they effect a considerable saving of side and cross-wall, which goes far towards paying their cost, and are a protection against fire, presenting an incombustible surface to burning bodies falling upon them. Being nearly level, they may be used conveniently for all the purposes of common yards. The daily use of Roofs, to which we can refer, sufficiently attests their durability for those purposes. Orders respectfully solicited.

LOUDEN & DUFFY. We, the undersigned, having used the Composition Roofing Material of Louden & Duffy, very cheerfully recommend its use, believing it to possess all the advantages ascribed to it as a Fire and Water-Proof Composition.

Mr A A. Louden-Sir.—In reply to yours of yesterday, I would say that had it not been for the patent paper Roofing with which the Capital House is covered, it would have been impossible to have saved the building during the late fire adjoining it; and in my opinion I consider it Fire Proof.

Report of the Board of Examiners, May 20, 1851.

We, the undersigned, (by special request,) acting as the Board of Examiners of the Commercial Institute of Indianapolis, do excitify that we have attended the examination of the present graduating class of said Institution, and find said class as well acquainted with the elementary principles of Double Entry Book Keeping as could well be expected, their age and opportunities of actual practice considered. We believe them to have received from their present Instructor, a thorough drilling in this all important branch of Commercial Education, which, if steadily observed and properly practiced upon, will render them able accountants and valuable critizens, and we would recommend that the following named members of the present class receive Diplomas, to-wit:

James B. Weeks, John M. Dorsey, Hezekiah W. Roberts, Samuel J Morris, Joseph R. Haugh, John T. Ferguson, George W. Dorsey, Nicholas McCarty, Jr., James T. Brown, and Tvra Montgomery.

And in conclusion we would congratulate the critizens of Indianal in now having it in their power to patrentize a home Institution of Commercial education where as much information, in as short a time, and at far less expense, and anxiety of mind on the part of parents and active as a survey of the part of parents and active as a survey of the part of parents and active as a survey of the part of parents and active as a survey of the part of parents and active as a survey of the p

and at far less expense, and anxiety of mind on the part of parents and guardians, can, and we believe will be imparted, as at any other similar Institution in the West.
